

ROAMING SERVICES USING HOME LOCATION REGISTER

ABSTRACT OF THE DISCLOSURE

5 A distributed home location register (DHLR) (102-
104) authorizes roaming services agreement
electronically for a user (1) in a foreign network
(120). A home network 100 has a network HLR 101 which
10 records the roaming agreement and charges for billing
user (1). A visitor location register (VLR) (122) then
charges user (1) for services while in the foreign
network (120) according to the roaming services
agreement.
